THIS DOCUMENT CONSTITUTES INFORMED CONSENT FOR CHIROPRACTIC CARE

Our office has one goal, to aid the patient in achieving optimal health as quickly and safely as possible, through the removal of interference in their body. We do this through safe and gentle chiropractic care.

We will attempt to identify and diagnose any ailments you may have that may be corrected through chiropractic care, massage therapy and/or active/passive rehabilitation. If any condition or disease appears to be present out of our scope of practice, we will refer you to an appropriate physician to diagnose and/or treat that condition.

Our primary focus is the detection and correction of vertebral subluxation. This is the misalignment of one spinal bone or multiple bones with interference to the nervous system. Any interference to the nervous system may or may not cause various different symptoms. Again, our focus is to correct the cause, not the symptom.

Vertebral subluxations come on from physical, chemical, and/or emotional stress or trauma. Through specific chiropractic adjustments, we reduce and/or correct these subluxations. It is also important to note that the sooner we are able to treat your subluxations and the degenerative processes that are involved the faster and more completely your body will heal. It may be necessary to examine an individual each time a new injury occurs and often x-rays are necessary to maintain the utmost safety when dealing with your body. The risks of chiropractic care or massage therapy are minimal when dealing with a licensed professional; however, if you have concerns about these risks, please discuss them with the doctor prior to the examination.

I have read and I accept the terms above and understand them fully. I hereby give consent to the Injury & Chiropractic Centers of Florida to evaluate me to determine my condition and treat me for such conditions. I also understand that I may at anytime discontinue with the exam and/or x-rays or any treatment if I so choose.
